The lighter side of dentistry....

I'll be the good guy and you be the dentist.

James G. Brandetsas '45 is an accomplished cartoonist. For years he has contributed his work to numerous newspapers, magazines and books. He currently draws political cartoons for five different newspapers and lives in Naples, FL.

LETTER FROM THE PRESIDENT

Normally, with this being the final issue of the Dental Report for 2002, the outgoing president of the U.B. Dental Alumni Association would be thanking all Executive Council Committee members and secretaries for a job well done. I do thank them all for their tireless efforts toward the successful Buffalo Niagara Dental Meeting in October (over 2,500 attendees). We also enjoyed a beneficial year of continuing education courses offered across New York State; hospitality receptions and brunches at various major dental events; and student support for their activities and get-togethers. Without all of the selfless dedication of our Executive Council this past year none of this would have been possible.

Since I have no successor, however, I am also the incoming president for 2003 and need to make some reference to looking forward to working with all the council members and you the alumni, for a successful and productive year of dental functions and activities. So it appears I have covered all bases as your outgoing/incoming U.B. Dental Alumni president with one exception - your alumni association needs many more volunteers to help with all our committees, activities, and events for the upcoming year. The entire Buffalo Niagara Dental Meeting is planned, organized, and run by us. This requires an enormous amount of work on the shoulders of a handful of people. Please consider joining the Alumni Executive Council. We meet 4 to 5 times a year to help ensure the success of our organization and to serve our fellow alums. Thank you in advance.

Charles A. Matlach, DDS '76
President

Alumni Association Survey

Please help us evaluate our service to members. The Dental Alumni Association is conducting an anonymous on-line satisfaction survey through February 28, 2003.

Simply go to our web page (www.sdm.buffalo.edu/alumni/) and choose the correct link.

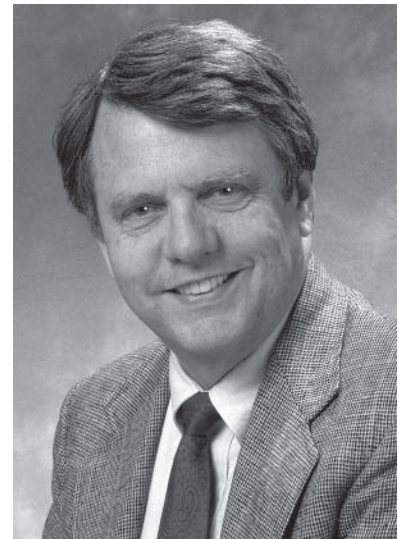

We value your input and appreciate your assistance.

Greetings From Dean Buchanan

Dear Alumni and Friends,

In the last issue of the Dental Report, I promised more detailed information about important transitions in leadership in two of the School's largest academic departments: Restorative Dentistry and Oral Biology. These transitions have been occasioned by the resignations of two of the School of Dental Medicine's most distinguished and long-serving academic leaders, Dr. Davis Garlapo and Dr. Robert Genco.

Dr. Garlapo relinquished his responsibilities as Chairperson of the Department of Restorative Dentistry effective June 3, 2002. He has resumed full-time academic activities in the department with an emphasis on clinical education and service. As announced in the last issue of the Dental Report, Dr. Genco was chosen last fall by our provost, Dr. Betty Capaldi, to serve in a newly created position as Vice Provost for Science, Technology Transfer and Economic Outreach. In order to devote himself more fully to this important new work, which will facilitate translation of the University's intellectual property into commercial applications that promote economic development in Buffalo and the surrounding Western New York region, Dr. Genco relinquished his responsibilities as Chairperson of the Department of Oral Biology effective September 1, 2002.

We are fortunate that Dr. Lance Ortman, who currently serves as Associate Dean for Clinical Affairs, and Dr. Rosemary Dziak, the current associate department chairperson, have been willing to assume respectively the additional responsibilities of interim department chairperson of Restorative Dentistry and Oral Biology. Their prior administrative experience and familiarity with their departments' faculty and programs have prepared them well to guide their departments during this period of transition in leadership. I hope our alumni and friends will join me in extending best wishes to Drs. Ortman and Dziak as they assume these new responsibilities on behalf of their departments and also in expressing our gratitude and congratulations to Drs. Garlapo and Genco for a combined period of service to our School that exceeds 70 years, 42 of those in senior administrative positions. This is a remarkable measure of their dedication to us, and we are very fortunate that Drs. Garlapo and Genco will remain members of our academic family.

Under Drs. Garlapo's and Genco's guidance, and Departments of Restorative Dentistry and Oral Biology, like our other academic departments, have made significant contributions to all aspects of our academic mission: education, research, and service to our community, patients, School, University, and profession. However, each department has, by design, its own specific area of mission focus. The Department of Restorative Dentistry, with an obligatory commitment to clinical education and patient care, concentrates on the educational element of our mission; the Department of Oral Biology focuses on basic and clinical research. Each of these departments has achieved a preeminent position among similar academic departments in our nation, enjoying respectively widespread recognition for innovations in clinical education and excellence in science. While differing in focus, each department is equally important to the School's efforts to sustain its traditions of high academic quality and balance in achieving its mission. The current strengths of these departments, which are a tribute to the hard work and leadership of the former chairpersons and their faculties, will facilitate our efforts to recruit outstanding new chairpersons for both departments.

Both search committees have been appointed, and early responses from candidates have been promising. The committees will review and interview candidates in the spring with the aim of identifying new department chairpersons by next summer. I look forward to opportunities to update you on these critically important search processes as they progress.

Richard N. Buchanan, DMD
Dean

Dr. Russell J. Nisengard 2002 Honor Award Recipient

In recognition of his many accomplishments that have helped to promote the continued growth, development and success of the UB School of Dental Medicine, the Dental Alumni Association is proud to confer the 2002 Honor Award upon Dr. Nisengard.

Dr. Nisengard is a lifelong resident of Buffalo who earned his DDS degree with honors from the University at Buffalo in 1966. He then earned both specialty certification in periodontology and a PhD in microbiology also from the University at Buffalo in 1970. In that same year, he was appointed to the faculties of the School of Dentistry in the Dept of Periodontology and the School of Medicine in the Dept of Microbiology. Following his initial appointment, he was rapidly promoted to Associate Professor with tenure in 1973 and to Professor in 1977. In recognition of his years of outstanding teaching and scholarship in the fields of microbiology, immunology and periodontology, and his service to the university and the community, the Board of Trustees of the State University of NY awarded Dr. Nisengard the title of Distinguished Teaching Professor in 1991.

Dr. Nisengard has been an active scholar and researcher with over 80 peer reviewed publications and over 135 national and international presentations in the areas of immunology and periodontology. He is widely recognized as an authority on the immunology of periodontal disease and, particularly, the oral manifestations of dermatologic diseases. He co-authored a widely read textbook for dental students entitled, "Oral Microbiology and Immunology" and has contributed chapters to several other textbooks including the standard textbook in the specialty of periodontics. He has received numerous research grants from both the public and private sector for basic science and clinical studies including awards from the National Institute of Dental and Craniofacial Research. As an outgrowth of his research interests and in the forefront of the university's efforts at technology transfer, Dr. Nisengard and colleagues from the School of Medicine founded IMMCO Diagnostics, an immunological testing service located in Buffalo. He is an active member of the American Dental Association, the American Dental Education Association, and the International and American Associations for Dental Research.

During his career, Dr. Nisengard has served in a number of important posts. He has been President of the Periodontal Research Group and Chair of the Nominating Committee for the American Association for Dental Research. He has also served as Chair of the General Session Program Committee and Chair of the Research Forum Subcommittee for the American Academy of Periodontology. His many outstanding contributions to the field were recognized by the American Academy of Periodontology who in 1994 awarded Dr. Nisengard the prestigious William Gies Award.

Dr. Nisengard has held many key administrative posts throughout his long and distinguished career. Since 1993, he has served as Associate Dean for Advanced Education and Research focused on improving the quality of the school's graduate, post-graduate, and continuing education programs, enhancing student recruitment and obtaining resources through innovative means. As evidence of his successful leadership, student participation in research increased and educational programs expanded with new programs in esthetic dentistry, implant dentistry and TMD. Continuing education offerings have dramatically increased in both number and scope. As chair of the school's Accreditation Steering Committee, Dr. Nisengard's leadership was an important factor in the school's highly successful review by the Council on Dental Accreditation in 1996. From July, 2000 to January, 2002, he served as Interim Dean in the School of Dental Medicine. During his tenure, he focused on developing partnerships between the school, the community, industry and health professionals in order to improve the quality of our educational programs, to recruit outstanding faculty, to facilitate research and to improve access to oral health care.

Dr. Nisengard also maintains an active periodontal practice. He and his wife Elaine live in Buffalo, NY.

Dr. John C. Canney 2002 Humanitarian Award Recipient

In recognition of his unselfishness, concern for others and his commitment to dentistry and his community, the Dental Alumni Association is proud to present the 2002 Humanitarian Award to John C. Canney, DDS '52.

Dr. Canney enlisted in the Air Force after graduation and served at Carswell A.F.B. in Ft. Worth, TX. He was later transferred to Limestone A.F.B. in Limestone, ME, where he was second in command of the dental facility there. He left the service in 1954 with the rank of Captain and entered private practice in Buffalo, NY. Dr. Canney practiced until 1989 when he retired to his farm in Wales, NY. As a dental practitioner, he was involved in interceptive orthodontics and tongue thrust therapy working with speech pathologist, Dr. Daniel Garliner. Dr. Canney was on the dental staff of Buffalo Mercy Hospital for many years and served as Vice-President.

Dr. Canney's volunteer work began early in his career when he was a member of the Appolonia Guild, which served some of the poorer patients from the inner city. He also served as a dentist at the Dominican House in

Buffalo. In the early 1980's he served on three different occasions at a kibbutz in Israel, where he lived for a month-long stay. This gave Dr. Canney the opportunity to not only help the people there, but also to travel "behind the scenes" to such interesting places as Jerusalem, Bethlehem, Tel Aviv, the Dead Sea, Galilee and Haifa. Wherever he traveled, he liked to live with the people and learn their ways from them.

In retirement, Dr. Canney became associated with the missions in Haiti, where he has served along with a medical team, on four different occasions. He was the first dentist to serve in a remote village there, Coq Chante.

In his personal life, Dr. Canney served as president of the Home School Association of Nativity Parish in Williamsville, NY, and is currently vice-president of the parish council at St. Cecilia's Church in Sheldon, NY. He has been active in Wales town politics and once ran for justice, although unsuccessfully. Dr. Canney has also served as co-chair of his reunion class for the past 15 years, is a member of the Class of 1952 Scholarship Fund Committee, and is a member of the School of Dental Medicine Dean's Associates.

Dr. Canney is the father of 9 children (one deceased), 18 grandchildren, and 2 great grandchildren.

Dental Alumni Association Awards

If you know of an alumnus who is deserving of either honor, please contact the Alumni Office at (800)756-0328 ext. 2 or (716)829-2061; FAX (716)829-3609; EMAIL msulzbac@buffalo.edu

Honor Award

This award is given to those whose enthusiastic and untiring endeavors have helped to promote the continued growth, development and success of the UB School of Dental Medicine

Humanitarian

This award is given to the alumnus who best exhibits the following characteristics:

- Unselfishness • Concern for others • Commitment to dentistry
- Commitment to, & involvement in, their community • Is of high moral character
- Someone who through their actions has distinguished themselves as a leader in their community

Alumnotes

John E. Laura '47 has been retired from practice since 1997. As a retirement activity, he volunteers at a museum in Syracuse, NY, that has a reconstruction of an apothecary shop that was Rothschild's Pharmacy. Dr. Laura shows visitors around the shop, explaining the old machines and workings of an apothecary shop circa 1900. The shop has a display case with many proprietaries and nostrums sold at the time. The photo shows Dr. Laura demonstrating how pharmacists made pills, suppositories and tablets from raw botanicals.

Mark Morchower '64 sold his office in September and is now working as a dentist in two retirement homes. He is semi-retired and plans to take more, and longer, vacations.

Duffy O'Connor and **Mary O'Connor '73** at the opening of the newly renovated Pediatric Clinic at Squire Hall. The project was made possible through a generous gift from the O'Connors.

George W. Ferry '78 received the Alan J. Gross Excellence in Teaching Award at the 2002 School of Dental Medicine Convocation. The award was determined by the second year class and is based on enthusiasm for the subject matter, ability to convey information clearly, and a genuine concern for students. George has been the course director of Dental and Oral Anatomy for the past three years and continues as curator of the School's dental museum.

Robert P. Marier '81 was named to his first three-year term of the Delaware Board of Dental Examiners in Oct. 2001. He is currently in private practice in Milford, DE. Milford is the home of the LD Caulk Division of Dentsply, where he was previously a clinical research dentist.

Lawrence Tabak (PhD in Oral Biology '81 & Certificate in Endodontics '85) has been elected to membership in the Institute of Medicine. He is the only dentist elected this year in a group of 65 new members.

Catherine M. Gogan '85, GPR '86 & MS in Oral Sciences '95 was selected by Mount Mercy Alumnae Association to receive the Catherine McAuley Distinguished Alumnae Award.

Michael Litvak's ('88) professional achievements include Board Certification in Prosthodontics (1999), Member of the American Academy of Fixed Prosthodontics (2000), Fellow of the GNYAP (2001), Fellow and Executive Board member of the Northeastern Gnathological Society (1999), and member of the Academy of Osseointegration since 1991. Dr. Litvak is currently in private practice in New York and lectures locally on implants and esthetics.

Mary Beth Dunn '90 is currently in private practice of pediatric dentistry in Clarence, NY. She was inducted into the International College of Dentists during the ADA Convention in New Orleans, Oct. 2002.

Robert A. Bochiechio '92 recently purchased the practice of **Dr. Robert Laudico '62** and merged it with his own. He and his wife, Anju, are happy to announce the birth of their second daughter, Lianna Kumari Bochiechio on July 9, 2002.

Victoria J. Roeder '93 & Certificate in Pediatric Dentistry '98 opened a solo pediatric dentistry practice in Jan. 2001. She is currently in the process of building a home 3/4 of a mile down the road from the office.

Cindy R. Pong '94 and her partner, Ron Rubin, recently moved into their newly constructed, state-of-the-art office, along with a large pediatrician practice. She was married on Nov. 23, 2002.

Eric S. Shapiro '99 recently completed a three-year tour of duty in Okinawa with the U.S. Navy. He is presently attending the Endodontics Program at Stony Brook.

Jonathan Hayashi '00 is currently in private practice in Philadelphia, PA. He and his wife, Ikuko, are very happy parents to their first child Ren (a boy), born on June 27, 2002.

Vasuki Thevanayagam '00 started a new dental office, Choice 1 Dental, in West Amherst, NY.

My Thoughts on Dr. Richard A. Powell '49

Born April 11, 1917; Died October 15, 2002

As time passes, people come and people go, but some seem to stay with us always. Recently, with the passing of Dr. Richard A. Powell, our dental community lost one of these people. Dr. Powell gave more to the profession of dentistry than anyone I have ever met. Dentistry was his passion!

Dr. Powell, the person, was a man rich with self-discipline and professionalism. A man dedicated to the enrichment and education of others. A man who approached others with compassion and understanding. Dr. Powell lived his life to the fullest and expected the same from others.

Dr. Powell as a leader, led mostly by example in a way that was easy to follow by all. As an educator, he was impartial and fair; he expected the best from himself and his students. As an administrator, he expected his school to be on top and did whatever he could to ensure the best education for everyone. He was a model for students and faculty alike.

Dr. Powell balanced his rigid disciplinary style with a warm subtle sense of humor. One time I overheard him explaining to a classmate, who continually called him 'doc,' what 'doc' meant. He proclaimed, "Doctor, do you know what the doc side of a horse is?" My classmate replied sheepishly, "not sure" "The doc side," Dr. Powell explained, "is the back side of the horse!" With that, Dr. Powell walked away, never to be called 'doc' again.

Dr. Powell balanced his educational style with a strong sense and respect for educators and techniques that came before him with new techniques and treatments that shaped the future of dentistry. He was keenly aware that dentistry needed to continually better itself, but we should never lose sight of where we came from or how we got there. His approach and leadership is sorely missed today.

Dr. Richard Powell fought to the end and has taught others to do the same. Never give up, always try to make yourself better, respect others as you would respect yourself. Dr. Powell thank you for enriching all of us, we will miss you greatly.

Michael D. Ehlers '85, Editor

The School hopes to establish an endowment fund in Dr. Powell's memory. For details contact Carol Vanini at 716-829-3931 or 800-756-0328 ext. 2.

Reunion Classes Dinner Dance

Hyatt Regency

October 4, 2002

The Reunion Dinner Dance held in conjunction with the Buffalo Niagara Dental Meeting was a great success. It was a tremendous evening of reacquainting and reminiscing for Classes from 1942 through 1997. All classes in attendance were well represented and many thanks go out to the hard working class chairs. The Class of '52 was our golden anniversary class and 12 members were present to be so honored. Two other classes that stood out as reunion stars were the classes of '82 and '97. Both classes had great representation at the dinner dance and other class activities. Which class is the true champion will have to be determined five years from now in 2007. The Class of '82 did bring a unique reunion concept to the dinner. A booklet, created by Gretta Tomb '82, contained a copy of each senior page from the yearbook in 1982 with an updated page adjacent to it, with a brief bio and current photos. It was a work of art and appreciated by her classmates. The class camaraderie that is present for all the classes is truly evident on this special evening. The Alumni Association looks forward to assisting all reunion classes next year and in the future to gather together and celebrate once again as friends, partners and graduates of our great Dental School.

Development News

Donors to the School of Dental Medicine; Fiscal year 2001-2002

Deepest appreciation is extended to all those alumni, friends, corporations, organizations and foundations who have supported the School of Dental Medicine during the last fiscal year: July 1, 2001 through June 30, 2002. Listed here are all donations made during this time period. Please note that contributions made after June 30, 2002 are not included because they are gifts for the 2002-2003 fiscal year and will appear in next year's contribution list. Please also note that donors are listed according to contributions made to the School of Dental Medicine only, and not based on their overall fiscal year gifts to the University.

Each donation is important to us and we have made every effort to ensure that no name has been missed. Please let us know of any inaccuracies by reporting them to: Erin McKendry, Assistant Director of Development, (716)829-2052 or 1(800)756-0328, ext. 2, e-mail: erinm@buffalo.edu.

When a class year is included, it reflects the year in which the individual graduated from the DDS program at the School of Dental Medicine. If the individual attended the UB School of Dental Medicine for post-graduate school only, their post-grad (or P-G) year is listed.

University Founders: The University Founders is a recognition society that acknowledges cumulative lifetime giving to the University at Buffalo of at least \$50,000. The following generous donors are members of the University Founders on the basis of gifts made to the School of Dental Medicine:

Dr. Gerald C. Benjamin '77
Dr. Mary F. O'Connor '73

Dr. Harold R./Mrs. Virginia Ortman '41
Dr. Barry A./Mrs. Cathy Ruchlin '67

Hayes Society: The General Edmund Hayes Society honors individuals who have made provisions through a bequest or other method of deferred giving to perpetuate their connections to all that UB represents. The following School of Dental Medicine alumni are members of the Hayes Society:

Dr. John C. Canney '52
Dr. Sebastian G. Ciancio '61
Dr. Lawrence J. Comfort '49
Dr. Cyrus J. DeGerome '41
Dr. Seymour L. Dushay '53

presents... **'Education-on-Location'**

Marriott Marquis Hotel, Broadway Avenue

New York City

Friday, April 4, 2003

1-4pm (3 ce hrs)

*Reception 4-5pm
hosted by
UB School of
Dental Medicine*

Medical Conditions of Importance In Dentistry

Advances in medical and surgical knowledge and treatment have permitted many patients who formerly would have succumbed or been seriously incapacitated by their diseases, to live and enjoy productive lives.

Clearly, the dental practitioner must be aware of those patients and medical conditions which might be compromised if routine dental care were provided. In addition, the dentist must be aware of the oral manifestations of systemic diseases.

These manifestations may be the first signs of a systemic disease and the dentist may be the first professional counselor to whom the patient turns for diagnosis.

Special Guest Faculty: **Alan J. Drinnan, DDS, MD**

Distinguished Service Professor Emeritus in the Department of Oral Diagnostic Sciences, University at Buffalo; Diplomate, American Board of Oral Pathology; past President, International Association of Oral Pathologists.

Do You Have Photos We Could Use?

We are looking for group pictures of UB dental alumni through the years (1930 - present) to feature in our reunion materials. If you have a picture you would be willing to share (we will return it to you), please call Erin McKendry, Assistant Director of Development, at (716) 829-2052 or 1(800) 756-0328 ext. 2, or mail picture to Erin McKendry, University at Buffalo, 338 Squire Hall, 3435 Main St., Buffalo, NY 14214. Thank you!
