

Buffalo Niagara Dental Meeting 2011

Balancing Esthetics and Function with Today's Composite Technology

Dr. Donald Antonson

Friday, November 4, 2011

Buffalo Convention Center

9am-noon

\$75

Join **Dr. Donald Antonson** as he shares his philosophy for creating beautiful smiles with one of today's contemporary direct composite materials. Learn how he balances patient demands for esthetics with the functional requirements of long-lasting, well-performing direct composite restorations.

During this hands-on program, **Dr. Donald Antonson** will showcase posterior composite placement as well as diastema closure and direct anterior bonding involving multiple teeth. He will share his secrets to making composite materials blend invisibly with surrounding dentition, discuss application techniques, and solve post-operative sensitivity issues.

Dr. Donald Antonson is a Professor and Associate Dean for Academic Affairs for the Department of Restorative Dentistry at the University at Buffalo School of Dental Medicine.

In order to participate in this special hands-on presentation, all attendees must be registered for the Buffalo Niagara Dental Meeting.
